High-Performance Audio that Stays Out of Sight

Russound AVA2.1 + IW-620 In-Wall Speakers

Clean design meets rich, room-filling audio.

Enjoy rich, room-filling sound for music and TV without cluttering your walls or floors with boxes and wires. The Russound AVA2.1 with IW-620 in-wall speakers is a premium audio solution designed to disappear visually—while elevating everything you watch and listen to.

Why This Solution Is Right for Your Home

Invisible by Design
In-wall speakers blend seamlessly into your space, preserving clean lines and décor

Clear, Natural TV Sound
Dramatically improves dialogue and detail compared to TV speakers

Pure Music Performance
High-fidelity stereo sound with deep, balanced bass support

Simple TV Integration
Clean connection to your television for everyday viewing and streaming

Easy Everyday Control
Use your TV remote or app for volume and source control

Ideal For
New builds, remodels, and upgrades where both great sound and clean design matter.

Beautiful sound—whether you're watching or listening.
